## TECHNICAL DATA SHEET

Masking tape

### 750

#### Product Description

750 is a masking tape coated with solvent acrylic adhesive and it has good initial tack and removable. It can be applied to the waterborne and solvent paint masking with the environment temperature from 0°C to 100°C.

#### Product Features

- Good initial tack.
- No adhesive residue when removed.
- Baking temperature up to 100°C.
- Waterproof

#### Main applications

- Automotive painting.
- Outdoor painting.

#### Usage guidelines

- Surfaces to which tape is applied should be clean, dry and free of grease, oil, moisture, dirt and other contaminants.
- Sufficient pressure should be applied during application. It will affect the properties and appearance if the pressure is not enough.

#### Storage condition

- Shelf life 12 months from date of production. Tape should be stored in a cool ( temperature between 10°C~35°C), dry (humidity under 50%)environment.
- Well ventilated area away from sunlight, air conditioner and other heat sources.

#### Product composition

Substrate :	Masking paper
Adhesive :	Solvent acrylic adhesive

#### Product Properties

	Spec.
Total thickness(mils) ASTM D-3652	4.9±0.4
Tensile strength(lbs/in) ASTM D-3759	≥14.8
Elongation at break ASTM D-3759	≥6%
Peel adhesion(OZ./in) ASTM D-3330	≥12.6
UV-resistance	14 days
Temperature resistance	80°C*1H

Note: The data are only typical properties based on ASTM standard test, they are not equal with the normal instruction.

#### Specification

Colour: blue  
Jumbo roll size: 735MM X1800M  
Finish roll size: as per customer's requirement  
For details please contact with our sales.
